

## TANDEM AXLE

9,000 - 18,000 L

The tandem axle range has anti-movement internal baffles for increased safety and optional extras like a weight-sensing spring drawbar, a weight management system and auto-fill that enables filling from the tractor seat. Twin axles and flotation tyres mean it's kind to grass and ground.

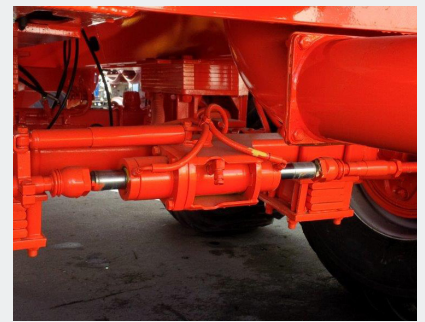

**Inverted splash plate**

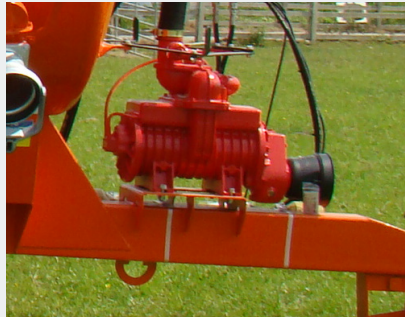

**Parabolic leaf sprung drawbar**

**Self-steering rear axle**

**Double trap system**

**MEC 9,000 l/min ballast pump**

**Tandem axle**

### Features:

- Full length chassis with 4 point welding
- Tandem axle
- Self-steering rear axle
- Flotation tyres
- Parabolic leaf sprung drawbar (weight sensing)
